Maestro

HEALTHY WATER

for Beverages and Food

Maestro

for Tea, Coffee and Food

Pure and healthy water without limescale, rust and harmful impurities

Mineralization level control – improved flavor of gastronomic dishes, tea and coffee

Small size and high capacity
Easy to mount and maintain

Built-in diaphragm wash – increased life span

Low operating expenses

Mineralization
level control

Water filtration via
Aragon 3 cartridge

Quasi-softening with remaining
calcium salts in the aragonite form
which are easily digested
by the human body and do not
form scale. Increases lifetime of
reverse osmosis membrane.

Maestro

SPECIFICATIONS

	MAESTRO 2000	MAESTRO 4000
Number of membranes	1	2
Producibility (at a temperature of the purified water of 25 degrees Celsius)4, liter/a day	up to 2000	up to 4000
Drainage4, liter/a day	up to 2600	up to 4900
Mixed performance (at a temperature of the purified water of 25 degrees Celsius)4, liter/a day	up to 2500	up to 5000
Dimensions, mm	450x410x480	
Mass, kg (without water)	27	29
Power, W (Watt)	110	170

GEYSER MAESTRO

reverse osmosis system with a regulated level of treated water mineralization
